Many are prone to think of eyeglasses purely as instruments of vision; but, in a very real sense, they are also articles of apparel. How fitting then, that an institution which maintains the highest standard of scientific skill and dependability in their making, should likewise excel in the important and delicate task of making them correct in style, good looking, and becoming.

RESTORATION OF THE RUHR.

The report that the French will get out of the land. Ruhr within another fortnight will be welcomed by American opinion. If there was justification for the Franch occupancy, with which there was little sympathy in this country, it seems at any rate capted as a part, interesting and important, in sponsible for debts contracted by others desirable that as soon as practicable it should be the spread of the American republic from sea to than himself release him in cases in ended. It was an obstacle to the return of stability in Europe and an element poisoning Franco-German relations. It seemed to us ill advised and illog-ical as retarding German economic restoration and hence Germany's ability to meet even the modified demands of the allies for reparations, and while the Germans have been in actual control since the drawal of the French will tend to clear the air and perhaps assist the negotiations of the pending security pact. STUFFING THE EAGLE WITH LAWS.

Prof. M. W. Jernegan of the University of Chiago says that one reason for the foolish American laws is that they come from uneducated legislators and that more college men in the general assembly would raise the standard of legislation.

One reason for foolish laws is that they con from lawmakers. When a man is elected to make laws he proceeds to make them. Two of the low wave stations were acknowledging telephone calls, telling us that So and So on So and So street wanted to hear a So and So number. One of these announcers told us that a telegram sender congratulated the station on its sender congratulated. tation on its good program. Local tatic racket! static racket! Why don't these stations also read kicks?

That's enough of the human static element for this time.

There were no whirlwind programs. The WEBH 7 to 9 program was consistently good throughout, with excellent talent.

Tschaikowsky's "Arabian Dance," played in violin duet by Victor Young and Jack Wuerl is mentioned because the music was as somber as the night itself. Someone in the hotel gining room yelled "Very good" at the close of Schubert's "Erl King," sung by Mark Fisher. Bryce Talbot revealed a highly polished, intelligently used tenor voice.

Seems to me the evening's most enjoyable moments were those spent listening to the fine [sounding] Woodlawn theater orchestra, through WMBB at 8:15. These were rolling, rollicking, syncopated numbers, but were so far ahead of one-two-three-

pat of the regular every minute orchestras that there was no

comparison—on a Sunday night.

Also here is applause for the tenor who sang "Marcheta" so brilliantly.

The W-G-N 9 o'clock concert was for the serious minded, and given by the brake Concert ensemble with Clement askowski, tenor, as the special soloist—a tenor by nature fitted for large ôles. For a half smiling, taunting number, the Ballet Music [Rameau], layed by the Drake ensemble, needed to illustrated program description.

When the Opening Bell Rings on Tuesday Morning We Will Launch Officially

THE GREAT AUGUST SALE E FURNITURE AND ALL HOME FURNISHINGS «

In values, in quantity, in variety, in every detail of preparation, we have borne in mind the fact that Chicago has been taught to expect big things of us. This Sale is a fulfill-

ment of those expectations. Everything is ready. We invite your participation today in an event which takes rank as one of the great sales of the country.

On View Beginning at 8:30 This Morning for Inspection and Selection.

Our determination not to be undersold keeps us everlastingly at the job of testing values, comparing and producing a still better piece of merchandise for a still lower price. We know what kind of furniture people want in their homes. We know that the most precious instinct in the world lies at the heart of one's ambition to have a beautiful, comfortable home. We are teaching people the beauty and appeal of inherent soundness of wood and workmanship by bringing beautiful furniture to them at prices within their reach.

Imense assortments are among the important buying advantages the August Sale offers you. But better still is the fact that in all this variety, in spite of low prices, there is no piece of

furniture that is unworthy to take its place in a home. It is soundly built, real, and, in accordance with a policy that you cannot value too highly these days, HONESTLY NAMED!

We have done our planning, our buying, our pricing—and now, as surely as values are powerful, Chicago Homemakers will do the rest!

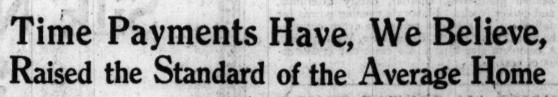

TATHEN people are establishing a home, they buy what they need and what they like as far as their resources allow. If their resources are increased by the convenience of

Chicago, homeloving Chicago, that knows what beauty in furniture means, will thrill at the news that there is to be had a Genuine Needlpoint Chair for \$49.50. It is 36 inches tall, with a 20-inch wide seat.

The frame is solid walnut, handcarved with the most meticulous artistry. The chair is upholstered with genuine imported hand-loom tapestry, gros and petit point weave. Such a chair-of such quality, such workmanship, such beauty—deserves a price nearer twice what we are asking for it in the August Furniture Sale. Special buying in immense quantities brings this value, one of the greata time payment plan, they buy, better furniture than cash buying would permit.

And this fact makes for permanently better homes. A little effort-scarcely noticed-and the home one comes into day after day is a far more cheerful, charming, pleasant place to live.

TANGIER, July 19.—Great Britain's refusal to land troops at Tangier in cooperation with the French and Spanish as reinforcements for the international police force is accepted here as a new vindication, if not an exact duplication, of America's policy concerning this favorite spot for breeding European war.

internal and external, but there will be no question of American marines being called to land within this dangerous radius of the north African war because such a possibility was eliminated by Washington's nonparticipation in the international statutes formulated in December, 1923, by Great Britain, France and Spain.

France and Spain.

America, which was not consulted in the formulation of the new rules, has not seen fit to accept the invitation of Great Britain, France, and Spain to suversides the signatories of the new rules, has not seen fit to accept the invitation of Great Britain, France, and business cannot be controlled by any authority other than the American consult who also has the power to hold authority other than the American not leave to hold trials. Morocco, thanks these same capitulations, is one of the few places in the world where American goods may be imported on an equality with exports from other countries. American and French autos pay the same import duties in Morocco, and these cannot exceed 12½ per cent.

C. A. WINSHIP, PIONEER LEADER

IN CHICAGO, DIES Charles Allen Winship died yester-day morning at Chicago General hos-pital at the age of 82, after an illness of several months. He was one of the last conspicuous figures in the elder Potter Palmer's generation of Chicagoans. In the days of those builders everybody knew Charley Winship, for he was a companionable man of much capitality and a good feel of wit in his geniality, and a good deal of wit in his dry Yankee way. For twenty years he engaged in the livery business on the site where Orchestra hall now stands. Mr. Winship was first noted in Chicago night life in the '70s. He was connected with Mike McDonald's store" at Clark and Monroe streets or many years. He dealt faro bank with Cliff Dougherty and Johnnie Dow-ling. When gambling declined in the

Charming Versions of the Summer Mode in Women's and Misses' Crepe Frocks At \$35

The dotted pattern is made more effective by the bands of the silk crepe in white and plain color that edge the pleated collar, cuffs and apron front of the very goodlooking frock sketched at the left.

This frock, for women, is of crepe de Chine in tan with navy blue dots, blue with white dots, navy blue with tan dots, and black with white dots. \$35.

The misses' frock of Georgette crepe has bindings in contrasting shade. It is posed over an underslip of the Georgette crepe made of bands in white and the two tones that make the frock. In fuchsia, beige and brown. Sketched at the right. Low priced, \$35.

Different Fabrics Are Contrasted in These New Sports Hats, \$12 to \$22.50

Unmistakably of the new season are the smart sports hats that make up this collection. That's noted in their every line and detail.

Of Stitched Satin Colorful Velours and Felt and Hatter's Plush

A cluster of metallic quills or bindings of gilded kid carry out the note of richness in the garniture. Others depend on the fabric alone for trimming.

So a small hat of velours is finshed with flat ornaments cut from the fabric. Facings of hatter's plush trim a small hat of felt. These attractive hats are priced according to style from \$12 to \$22.50.

These Hats Are in the Sports Section.

which Cadrigan had sold and built her, and of which the grounds after grading and leveling were still comparatively in the rough. These conferences annoyed

fronica a little, because they were neither social nor strictly professional. Mrs. Tate was Cadrigan's best card in the building up of a community that is rich, but so far not especially distinguished socially. He was astute out to know the value of such a lure as lies in the location of folk whose vilations are accepted by the members of families whose own choice of a sarry home might prove the making of a place. Cadrigan had seen this upon in his own experience, where quite apart from other attractions the are establishment of a prominent family became the fucleus of a fashionable set, like Bar Harbor and Aiken and Southampton. "Well, you can consider it as such. You seem to have charmed Prof Husted, and I'd rather like to see if your powers are limited to lonely old gen themen "—and she added as an afterthought—"or practical hard headed ones

like daddy—if you really have charmed him."

Pol glanced down at himself. "Don't you think I'm clothed in the proof.

"I should say that you were clothed in conceit." "It does sound that way," Pol admitted. "Here I have claimed to be oet and artist and landscape gardener and woodsman and golfer, with the lard knows what besides, and despite these gifts, I am living like a beach-

They did not bump heads, but what was perhaps more of a shock, though differently applied, their cheeks came together. Veronica straightened up so suddenly as to lose nce. She was on the edge of the float, and for a moment hung out of dibrium. Poi threw his arm around her. Veronica, still unbalanced, ided herself rather than go overboard. Pol, expending energy against less tance than he had anticipated, lurched back against the launch, his own through destroyed. The light boat began to drift out, so that Pol, still sping Veronica, found himself in danger of bridging the hiatus between not and float. To save them both he swung Veronica into the boat, barely naging to squirm in after her. This landed them on the cushions which ped off the seat to the flooring, the pair sliding after them like wrestlers

Veronica, overcome by the absurdity of the performance, shrieked with piter. She had twice escaped a ducking, once alone and once with Pol, and ind herself now clasped in his arms in the bottom of the boat overwhelmed farcical sense. Coming on the heels of shock, it left her limp. This sort er borders on hysteria. Perhaps Veronica's nerves had been more t morning than she was conscious of, and this was the reaction. Her her held a note that warned Pol of slipping self-control. His arm was still ther and he tightened his grasp, giving her a little shake.

t Veronica was off. His worried face, half glimpsed through swimming acreased her sense of the comic. Every muscle of her relaxed. She into a sort of ecstasy of mirth that was yet not entirely that. More props had been knocked from beneath her self-restraint. Perhaps her was in her ears and she had been holding herself taut too long. There on not only shamefaced but alarmed in Pol's face that struck rickingly funny. Her breath began to come in little gasps. Her head in back in the hollow of Pol's arm below the coaming and invisible, house. Her piquant features and brimming eyes looked precisely like

BY FRENCH LANE.

This looks like another Camden day at Hawthorne, as the former Blue Grass senator's three year old Light Brigade's filly, Oh Susanna, seems to have the Geneva Purse, the day's fea ture race, at her mercy. It is a dash at five and a half furlongs, and some Susanna stacks up as much the best. Adolphus, a full brother to the mighty Sarazen, running in the silks of Col. Phil Chinn, the champion " hoss swapper" of America, will be one of PIFT her rivals, also Mabel C from down New Orleans way, and Capistrane, owned by the Denver sportsman, Jimmy McGill. STORY: The Company was started in 1912, with a capital of \$5,000. With the exception of \$70,000 put in at a later date, it has grown to its present size entirely from earnings. The Company is the sole owner of the trade names, "Boyce Moto Meter" and "Moto Meter". It is the largest and practically the only manufacturer of a full line of motor heat indicators, for automobiles, aeroplanes and motor boats, both dash-board and radiator types. Its products are largely used by the United States Army and Navy Air Services. It also manufactures industrial thermometers of the mechanical type under the trade name of "Motoco". The Company has a large fireproof modern plant in Loss Island City. Besides this it has plants in Hamilton, Canada, and Frankfort, Germany. The company has granted licenses under which other plants are operated in Paris, London and Sydney, Australia.

MANAGEMENT: The management of the Company remains unchanged. The entire issue of Class B stock is retained by the present owners of the Company.

PATENTS: The Company owns, or has exclusive licenses under the patents covering the Moto Meter devices, the principal patents having been granted on inventions of H. H. Boyce and it has operated under a license from him since its formation. In the opinion of eminent patent attorneys, the principal patents, under which the Company operates, are valid and controlling of the "Boyce Moto Meter" type. The Company has never lost a patent suit.

BUSINESS: The business of the Company is done approximately three quarters with jobbers and ab one-quarter direct with manufacturers many of whom use the Company's product as stand equipment. Among the Company's manufacturer customers are Packard, Hudson, Studebal Dodge, Buick, Chandler, Paige and Cadillac. From this it can be readily seen that the Company of the largest manufacturers of motor cars in the wo

Commonwealth of Australia External Loan of 1925 Thirty-Year 5% Gold Bonds

Dated July 15, 1925

Interest Payable January 15 and July 15

Due July 15, 1955

NOT REDERMABLE PRIOR TO JULY 18, 1983

Redeemable, in whole or in part, on July 15, 1958 or on any interest payment date thereafter, on 60 days' notice, at 100% and accrued interest.

Coupon Bonds in denominations of \$1,000 and \$500, not interchangeable.

Principal and interest payable in New York City at the office of J. P. Morgan & Co., in United States gold coin of the present standard of weight and fineness, without deduction for any Australian taxes, present or future.

The following statement in connection with this issue has been prepared from information furnished by the Right Honourable Sir Joseph Cook, P. C., G. C. M. G., the High Commissioner for the Commonwealth of Australia in London:

The Commonwealth of Australia is comparable with the Dominion of Canada in area, resources and importance to the British Empire.

This is the first external loan which the Commonwealth has issued outside of the London market, where its securities enjoy the highest credit. Loans of the Commonwealth issued in London constitute a legal investment for Trustees in Great Britain.

Through the issuance of this Loan, of a £5,000,000 loan in London, and of a long-term conversion loan to be issued in Australia, the Commonwealth is providing for the refunding of short-term war debt which matures in December 1925.

GOVERNMENT

The total gross debt of the Commonwealth as of March 31, 1925 amounted to \$22,101,759.763, consisting of \$282,251,498 external debt in the hands of the public (payable in London); \$438,726,995 debt to the British Government (to be amortized by 1956 under a funding agreement of 1921); and \$1,290,681,271 internal debt.

The foregoing represents the entire indebtedness of the Commonwealth as it has no guarantees outstanding.

REVENUES AND The ordinary resenues of the Commonwealth in the fiscal year ended June 30, 1925
EXPENDITURES (partly estimated) amounted to \$334,500,000, and its ordinary expenditures to \$325,200,000, resulting in a surflus of \$9,600,000. These figures do not include expenditures for public works or for certain non-recurrent charges consequent upon the war, amounting to approximately \$40,300,000.

MONETARY
The monetary unit of Ametralia is the pound sterling, the gold standard having been restored on April 38, 1925, co-incidently with similar action in Great Britain, by the removal of restrictions on the export of gold. The Commonwealth Bank has the sole power of note-issue and on April 30, 1925 had \$276,856,285 of notes in circulation, against which it held a gold reserve of \$124,979,287, or over \$5%.

All figures stated in dollars in the above statement have been converted from pounds sterling at par of exchange.

THE ABOYE BONDS ARE OFFERED FOR SUBSCRIPTION, SUBJECT TO ISSUE AS PLANNED. AT 991/2% AND ACCEUED INTEREST.

Subscription books will be opened at the office of J. P. Morgan & Co. at 10 o'clock A. M., Monday, July 20, 1925, and will be closed in their discretion. The right is reserved to reject any and all applications, and also, in any case, to award a smaller amount than applied for. The amounts due on allotments will be payable at the office of J. P. Morgan & Co., in New York funds, the date of payment (on or about July 28, 1925) to be stated in the notices of allotment. Temporary Bonds or Interim Receipts will be delivered, pending the preparation and delivery of definitive Bonds.

Application for the listing of the definitive Bonds on the New York Stock Exchange is to be made by the Commonwealth of Australia.

The following information has been furnished by Dr. Conrad Adenauer, Chief Mayor of the City DIRECT OBLIGATION: These Bonds will constitute the direct obligation of the City of Cologne. The City covenants and agrees that if while any of these Bonds are outstanding it shall create or issue or guarantee any loans or bonds secured by a lien on any of its revenues or assets, the Bonds of this issue shall be secured equally and ratably with such loans or bonds or guaranty and the city further agrees that the total of such obligations secured by a first lien or charge on any of its assets or revenues shall never exceed \$50,000,000 including this issue. COLOGNE: The City of Cologne, with a population of 720,000 is the third largest city in Germany, ranking after Berlin and Hamburg. It is by far the largest and most important city in western Germany, and serves as the commercial, banking and distributing center for the coal and heavy metal industries in the adjacent Ruhr area. The City lies on both sides of the Rhine River and is located on the main east and west railway line between Berlin, Brussels and Paris, and also on the north and south railway line between Switzerland and the Dutch and Belgian ports. The extensive Rhenish lignite basin, which is in close proximity to the City, provides cheap fuel for electric and steam power plants. Important steel works, rolling mills, cable and wire, machinery, railway supply, dye, chemical and tobacco factories are located in the City and give employment to about 160,000 mated at over \$600,000,000.

NEW ISSUE

Dated March 15, 1925

The City owns valuable real estate, public buildings and productive enterprises, including electric light plants, gas works, water works, street railways, harbor works, etc., which yield large revenues. The value of the City-owned properties is estimated at more than \$180,000,000, and the value of all property subject to City taxation is esti-PURPOSE: The proceeds of this issue are to be applied toward the construction of the new

Municipal Harbor and Industrial Area, the improvement and extension of the street railway system and other municipal public utilities and the repayment of \$2,000,000 Notes due December 31, 1925, the proceeds of which were used for the foregoing purposes. FINANCES: While the accounts for the fiscal year ended March 31, 1925, have not been

completed it is estimated that they will show a surplus of revenues over expenditures. Of the total income of the City about 35% is derived from municipally-owned public utilities which were operated at a net profit of about \$2,000,000 for the fiscal year 1924-1925. This issue will constitute the only external debt of the City. The amount of the internal debt cannot be determined until final action is taken by Government authority in regard to the terms of revaluation of municipal obligations heretofore incurred; while no statement can be made at present as to the outcome of legislation now pending, it is not anticipated that the maximum requirements for payment of interest upon and for the amortization (within a period of twenty years) of such obligations, as revalued, will exceed \$900,000 per annum.

Under the legislation at present in force, passed to give effect to the Dawes plan, no mortgages have been placed upon any of the public utility properties owned by the City. al statistics in this advertisement are expressed in approximate terms of dollars converted at the rate of 4.20 gold marks

It is expected that application will be made in due course to list these Bonds on the New York Stock Exchange. We offer the above Bonds when, as and if issued and received by us and subject to approval of all proceedings by our counsel. Interim Receipts will be deliverable in the first instance. Price 871/2 and interest to yield over 75/8%

Explosion of 42,000 Gallons of Oil Shakes the North Side, and Fire That Follows Imperils It

BURNING OIL SENDS DENSE CLOUDS OF SMOKE ROLLING UP FROM SURFACE OF THE RIVER. Forty-two thousand gallons of oil were poured upon the north branch of the river at Clay street yesterday when three tanks on the Texas Oil company barge Reliable exploded and the oil caught fire, burning throughout the day.

FIGHTING THE FIRE WHICH FOLLOWED THE EXPLOSION OF OIL TANKER ON CHICAGO RIVER. TO picture shows the tanker in the foreground, while in the background is the big gas reservoir of the Peoples Gas Light and Coke company, the proximity of which led to great danger until it was hurriedly emptied by the company.
